ŽIVILĖ VIBRĖ

FULL-STACK DEVELOPER (junior to mid-level)

I am an ambitious junior full-stack developer looking for new challenges in IT and working towards a mid-level role.
I have over two years of back-end development experience with Laravel. I also completed an intensive 1,088-hour JavaScript programme, where I studied React.js, Node.js, TypeScript and web application development.
I enjoy learning, trying new things and finding solutions. I am keen to contribute to a variety of projects and gain more practical experience.

IT EXPERIENCE

June 2024 – Present IT Specialist, Tangent Z
Develop and manage the company's online store, biolabs.lt, using WordPress. Work includes website design, functionality and product management.
